i3Forum's Pledge on Combatting Fraud

Global Fraud Summit,

Vienna, March 16-17, 2026

By the end of 2026, i3Forum, a not for profit organization of the international telecommunication industry, pledges to provide implementable guidelines to the industry in order to enhance and harmonize the tools and practices to fight Voice and Messaging based fraud and scams.

Specific areas of focus include: identification and blocking of unwanted/ fraudulent calls, harmonization of global Numbering Plans, legitimate use of Cloud Numbers, Mobile Identity APIs, KYC, Information sharing.

As a member of One consortium, i3Forum's work is shared with other members, and contributes to the collaborative work with telecom regulators in GIRAF and relevant stakeholders globally.

Philippe Millet

Founder and Chair of the Board
